EDUCATION

Hanyang University, Korea <i>Master of Computer Science</i>	<i>Sep 2022 - Aug 2025</i>
Technological University of Tajikistan <i>Bachelor of Computer and Information System</i>	<i>Sep 2017 - Aug 2021</i>

TECHNICAL SKILLS

Programming Languages:	C#, C++, Java, Python, PHP, SQL
Scripting & Automation:	Bash
Frontend:	HTML, CSS, JavaScript, Bootstrap
Backend:	ASP.NET Core, LINQ, SQL Server, PostgreSQL, Entity Framework, ADO.NET
Tools:	Visual Studio, Visual Studio Code, Git, GitHub
Networking:	Network Routing, Security, Protocols, Linux/Ubuntu
Security:	Static and Dynamic Malware Analysis, Reverse Engineering
Data & AI:	Machine Learning, Deep Learning, Data Science, Data Analysis, Excel NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, Seaborn
Soft Skills:	Communication, Team Collaboration, Problem Solving, Adaptability

EXPERIENCE

Local Staff / Project Coordinator (KOICA-PMC Project) Young In Energy Solution, Ministry of Energy and Water Resources (Tajikistan)	<i>June 2025 – Present</i>
• Prepared daily work logs and submitted reports in English, Korean, and Tajik/Russian to KOICA and PMC. • Coordinated weekly/monthly design reports, supervised deliverables, and ensured compliance with project schedules. • Facilitated biweekly video conferences, reviewed meeting minutes, and mediated communication between KOICA, MoEWR, and contractors. • Supported procurement and bidding processes, local media promotion, and technical/safety training programs. • Provided translation support (English/Russian) for manuals and project documentation.	
Research Engineer Department of Computer Science and Engineering, Hanyang University — Seoul, South Korea	<i>Sep 2022 – Feb 2025</i>
• Developed machine learning and deep learning models for dynamic malware analysis based on runtime behavioral data • Designed end-to-end pipelines for feature extraction, model training, and evaluation on large-scale malware datasets • Analyzed execution-level behaviors (API calls, system events) to improve malware detection accuracy	
Faculty Teaching Assistant Department of Computer Systems and Internet Technologies (CSIT), Technological University of Tajikistan — Dushanbe, Tajikistan	<i>Sep 2020 – Jun 2021</i>
• Taught Algorithms and Data Structures using C# for undergraduate students. • Provided mentorship and academic support to students.	

Project Manager

Oct 2019 – Jun 2021

Tajik-Korean IT Center: World Transfer of Information Technology (WTIT),
Technological University of Tajikistan — Dushanbe, Tajikistan

- Led various IT education projects in partnership with Korean institutions.
- Coordinated workshops, managed training schedules, and supervised local IT initiatives.
- Oversaw collaboration between Tajik and Korean academic bodies for IT knowledge transfer.

Web Development Intern

Jun 2018 – Aug 2018

Technological University of Tajikistan — Dushanbe, Tajikistan

- Participated in hands-on web development sessions focusing on JavaScript, PHP, and MySQL.
- Collaborated with peers on small projects to apply frontend and backend development skills.

PUBLICATIONS

Rahimov, F., et al. (2024). *Enhancing Malware Detection with TabNetClassifier: A SMOTE-based Approach*. In *Proceedings of the Annual Symposium of Korea Information Processing Society Conference (KIPS)*.

CONFERENCES & WORKSHOPS

- **NetSec-KR 2023:** 29th Information and Communications Network Information Security Conference
Participated in sessions focused on cutting-edge research in network and information security.
- **2023 Workshop on Dependable and Secure Computing:**
Explored various aspects of building reliable and secure computing systems.
- **Korean Information Processing Society — ASK 2024:**
Presented a research paper and received the **Best Paper Award** for outstanding contribution.

AWARDS & ACHIEVEMENTS

- Awarded the **Global Korea Scholarship (GKS)**
- Received the **Brain Korea Scholarship (BK)**
- Scored **700** on the TOEIC exam (2024)
- Achieved **Level 3** in the Korean Language Proficiency Test (TOPIK) (2022).
- Honored with the **Best Research Paper Award** at the ASK 2024 Conference.
- Graduated with **honors** from the Technological University of Tajikistan.

LANGUAGES

- English (Professional)
- Korean (Intermediate – TOPIK Level 3)
- Russian, Tajik (Fluent)
